oggetti I

for wind quintet

Written for Chamber Music Campania, Lucera, Italy

by JASON THORPE BUCHANAN

PERFORMANCE NOTES:

Many of the techniques in this work are employed explicitly to destabilize or distort the timbral qualities of each instrument, and thus require relatively detailed notation. Once the character and intent of these techniques and their context within the work are understood, it may be possible (and preferable) to play more freely within this syntax with a more organic, or even improvisatory character. The performance should not be constrained or adhere too rigidly to what is written on the page, but rather flow fluidly and naturally.

TRANSPPOSITION:

Score is transposed.

The alto flute is written in G and sounds a Perfect Fourth lower than written.

The clarinet is written in B-flat and sounds a Major Second lower than written.

The horn is written in F and sounds a Perfect Fifth lower than written.

PITCH NOTATION:

Series of quarter-tones (one semitone = 100 cents (ct), one octave = 1200 cents):

						
Three-quarter-flat (-150 ct)	Flat (-100 ct)	Quarter-flat (-50 ct)	Natural (0 ct)	Quarter-sharp (+50 ct)	Sharp (+100 ct)	Three-quarter-sharp (+150 ct)

Series of sixth-tones: (arrows may also be used in conjunction with quarter tones to approximate smaller inflections):

					
6th-tone lower (-133 ct)	6th-tone higher (-66 cents)	6th-tone lower (-33 cents)	6th-tone higher (+33 cents)	6th-tone lower (+66 cents)	6th-tone higher (+133 cents)

TEMPORAL NOTATION:  A relatively short fermata.

DYNAMIC & TEMPORAL INDICATIONS: All dynamic markings should be considered relative, indicating the extremes of each instrument while utilizing a given technique. It should be understood that the dynamics indicated apply to the upper and lower dynamic range of whichever particular technique or context within which it exists. In the same way, all temporal indications, such as accel. or decel. markings (below), are completely relative to the rate of rearticulation directly preceding or succeeding the indication. If there is no rate specified, it is left up to the discretion of the performer to determine a musically appropriate interpretation.

These symbols can be applied to a variety of techniques, such as trills, multiphonic tremolos, harmonic tremolos, bisbigliandos/timbral trills, rearticulations, and event box tempi to indicate relative acceleration and deceleration. In other words, the number of beams does not indicate a precise subdivision, but rather an increase or decrease of speed.

EVENT BOXES: All passages inside event boxes are to be repeated ad libitum with a consistent pulse that is independent of the ensemble's pulse. These are sometimes accompanied by additional instructions, such as accel. or decel., change of pitch, bow pressure, regularity, etc.

MULTIPHONICS: Some specific multiphonic fingerings have been included in the score, and others are left up to the performers. Please note that in some cases, it is indicated that these multiphonics be used in conjunction with vocalizations, which should be rather abrasive/loud.

There is certainly some information that has been omitted from this early version of the score, so please do not hesitate to contact me with any questions at: jasontbuchanan@gmail.com

oggetti I (omaggio a Sciarrino) was written June 2-5, 2014 in New York, NY for Chamber Music Campania as composer-in-residence, and premiered by the Fiati 5 wind quintet in Lucera, Italy on June 25, 2014. This is the first movement of a larger cycle of works for wind quintet exploring concise musical objects, gestures, and formal structures. While composing this work, I was concurrently finishing *antistasis* for Ensemble Nikel and composing very rapidly to complete both commissions. Many concepts and compositional devices are shared between the two works, although there is no explicitly shared material. The Ancient Greek word ἀντίστασις (*antístasis*), meaning opposition, is defined as a rhetorical term for the repetition of a word or phrase in a different or contrary sense. In the work for Nikel, this concept is translated into sound through the repetition of a small number of musical gestures, or objects, that are continually recurring and recontextualized so as to contribute to the composite in a different way. *oggetti I* functions in a similar manner, drawing upon extremely limited materials that are reconfigured in various ways, something like a musical jigsaw puzzle.

Jason Thorpe Buchanan's works have been described by critics and leading composers as “an unearthly collage of sounds”, “sharply-edged”, and “free jazz gone wrong”, commissioned and performed internationally by conductors and ensembles such as Brad Lubman, Alan Pierson, Jean-Philippe Wurtz, Alarm Will Sound, Ensemble Interface (Germany), Ensemble Nikel (Israel), Ensemble Linea (France), Nonsemble 6, IKTUS Percussion, [Switch~ Ensemble], OSSIA, ensemble39, Brevard Music Center Orchestra, Fiati 5 (Italy), Sound ExChange Orchestra, Eastman Musica Nova Ensemble, and TAD Wind Symphony (Japan), among others. His Multimedia Opera *Hunger* has been selected for the Darmstadt Contemporary Opera Workshop with Ensemble Interface (2014), and The Industry FIRST TAKE Opera Workshop in Los Angeles (2015). Awarded a Fulbright Fellowship (2010-11) at the Hochschule für Musik und Theater in Hamburg (Germany) as a visiting scholar, he was recently selected as Artist-in-Residence by USF Verftet and the City Council of Bergen, Norway to complete work on *Hunger* in late 2015. Additional honors and awards include the ASCAP Morton Gould Award (2014) and the Howard Hanson Orchestral Prize (2014) for *Asymptotic Flux: Second Study in Entropy* (2013) commissioned by the Mizzou International Composers Festival for Alarm Will Sound, *Double Concerto* (2014) commissioned by the International Horn Society for soloists Jeff Nelsen, Mike Walker, and the Eastman Musica Nova Ensemble with conductor Brad Lubman, *antistasis* (2014) for the Tzli Meudcan Festival (Tel Aviv) with Ensemble Nikel, *oggetti I* (2014) as composer-in-residence for Chamber Music Campania (Italy), both the newEar 4th Annual Composer's Competition (2013), and selection at the NYC Electroacoustic Music Festival (2014) for *Asymptotic Flux: First Study in Entropy* co-commissioned by the [Switch~ Ensemble] & OSSIA, 2nd place in the American Prize orchestral composition competition (2012) for *Berlin Songs*, commissioned by the German/American Fulbright-Kommission and premiered at the Akademie der Künste (Berlin) during the European Fulbright Conference, and winner of the 2014 International Iron Composer 5-hour composition competition in Cleveland, OH.

Jason has studied composition with Ricardo Zohn-Muldoon, Carlos Sánchez-Gutiérrez, Robert Morris, Allan Schindler, David Liptak, Virko Baley, Peter Michael Hamel, Jorge Grossmann, Pablo Furman, and Manfred Stahnke, conducting with Takayoshi Suzuki and Brad Lubman, and with Georges Aperghis, Brian Ferneyhough, Raphaël Cendo, Chaya Czernowin, Augusta Read Thomas, Hans Abrahamsen, Philippe Leroux, Clemens Gadenstätter, José María Sánchez-Verdú, and Pierluigi Billone, among others.

He is Executive Director of the Valencia International Performance Academy & Festival's Composition & Contemporary Music Program (Spain) and from 2007-2012 served as founder and director of Melos Music, a composer's consortium and concert series in Chicago, San Francisco, and Philadelphia. He has served as assistant conductor for Eastman's Musica Nova Ensemble with conductor Brad Lubman, Graduate Teaching Assistant/Course Instructor for the Eastman Computer Music Center, board member of Ossia, and co-founder, conductor, and artistic director of the ECMC's ensemble-in-residence, the [Switch~ Ensemble] as a Ph.D. candidate at the Eastman School of Music. He holds degrees in Composition and Music Technology from San José State University and the University of Nevada, Las Vegas, where he taught courses in composition and music theory (2008-2010), receiving the highest honors for excellence from both institutions. Current projects include *Hunger*, a multimedia opera with libretto by award-winning poet Darcie Dennigan, a work for saxophone and electronics to be premiered by Andrew J. Allen at the World Saxophone Congress (Strasbourg, 2015), a work for solo percussion and electronics to be premiered by Peter Ferry (Chicago, 2015), a commission from the Blue Water Chamber Orchestra as winner of Iron Composer 2014 to be premiered May 2015 in Cleveland, and a new work for Distractfold Ensemble to be premiered at the Valencia International Performance Academy & Festival (Spain, 2015).
